## Prison Souvenir Stand Is Costly

LANSING — (AP) — The auditor general's department recommended today that a roadside stand selling inmate handcraft articles at the Marquette branch prison be charged overhead by the state.

The recommendation was contained in an audit of the prison's accounts.

Auditors said that handcraft sales approximate \$60,000 annually and that inmates receive the entire profit.

"It would seem," the audit said, "that the activity rightfully should be charged with some of the expense now borne by the state, such as site, building, light and power for the stand and the payment of the salaries of two custodial officers required to operate the business as well as the additional administrative personnel required in the office to handle the activity."

The auditors noted that Warden Emory E. Jacques withdrew \$2,167 in maintenance above his payroll deductions for that purpose, but said this was not an overdraw since his drawing account is not limited by regulation.

However, it said it could find no provision in the law for an unlimited drawing account for the deputy warden. The audit said Deputy Warden William E. Bath withdrew \$1,443 in maintenance above what he was charged.

## Subversive Activity Amendment To Stay On Michigan Ballot

LANSING — (AP) — The State Supreme Court refused today to take off the Nov. 7 general election ballot a proposed constitutional amendment to outlaw subversive activity.

Without comment, the court denied a petition for writs of mandamus and prohibition to direct the secretary of state to remove the proposal from the ballot. There was no written opinion.

The petition was filed by Walter M. Nelson, Detroit attorney representing Dr. Henry Hitt Crane, pastor of the Central Methodist church of Detroit.

# Reuther Backs Williams, Gets Rap From GOP

(By The Associated Press)  
Walter P. Reuther, head of the CIO United Auto Workers, drew Republican fire yesterday following disclosure that the labor leader was actively supporting Democratic Gov. G. Mennen Williams' bid for re-election.

Former Gov. Harry F. Kelly, the Republican nominee, asserted Reuther was attempting to form a third party through Americans for Democratic Action. Kelly contended that ADA is a Socialist group that has taken over the Democratic party in Michigan.

Together At Pontiac  
Reuther is scheduled to appear with Gov. Williams at a labor rally in Pontiac Sunday.

Kelly declared that Reuther had pleaded at the 1950 convention of ADA in Washington for creation of a new liberal party.

In a campaign speech last night (Tuesday), Gov. Williams challenged Kelly to name one item in the Democratic platform that could be called "Socialistic." He accused Kelly of "hurting the scare word 'Socialism' against all those who disagree with him."

"My opponent will not tell you where he stands," Gov. Williams declared in a speech at Holt high school in Ingham county.

Too Much Traveling  
Gov. Williams then outlined his own stand. It was, he said, "for a government that sees and meets the needs of all the people, legislation to help farmers market crops, decent treatment of elderly citizens, decent labor laws, protection for small business, adequate aid to schools, holding utility rates at lowest levels, and an immediate road building program."

Kelly spoke yesterday at Ann Arbor, Albion and Ypsilanti. He was scheduled to go into Bay county today.

The Republican nominee declared Gov. Williams spent too much time away from office. Williams, he said, "didn't have much experience when he took office and hasn't been at his desk in Lansing long enough to have gained very much."

Kelly declared that Gov. Williams in the first ten months of his term traveled 30,000 miles attending social functions, attending elections, calling square dances and queeneering.

# Bigger North Atlantic Defenses May Come Faster Than Planned

WASHINGTON — (AP) — The 12 North Atlantic nations, banded together for defense against Communist armed might, may be able to create a bigger force and do it faster than their military planners have hoped.

This prospect, cheering to a nervous western world, developed today out of the opening session yesterday of the military committee of the North Atlantic treaty organization.

Korean War Helps  
It resulted, essentially, from three things:

1. The urgent plea by American Gen. Omar Bradley to the committee for action now to bring an integrated land, sea and air force to resist any new military thrusts by Russia or her Communist satellites.

2. A move in the military committee, sparked by one of the smaller nations, to contribute to the combined defensive organization a larger force than had been blueprinted.

3. The overt act of Communism — bringing war to Korea — which has stepped up the tempo of rearmament by most of the Atlantic nations, whether or not they are fighting in the Far Eastern conflict.

## License Plate Revenue Split

LANSING — (AP) — Distribution of \$2,519,139 to counties, cities and villages for use on streets and roads was authorized today by the state highway department.

The money was collected by the weight (license plate) tax in the third quarter of 1950. All proceeds of the tax are returned to local units.

The third quarter collections made the total realized by the tax through September this year \$37,542,298, compared to \$33,808,469 at the same time last year.

The distribution by counties: Alger \$6,453; Baraga, \$7,171; Chippewa, \$11,661; Delta, \$13,137; Dickinson, \$10,569; Gogebic, \$13,226; Houghton, \$12,292; Iron, \$9,694; Keweenaw, \$14,513; Lapeer, \$6,554; Mackinac, \$6,326; Marquette, \$17,540; Menominee, \$10,001; Ontonagon, \$6,789; Schoolcraft, \$6,474.

Marshall did not explain this brief statement on war. But he declared that a strong, well trained citizens' army readily available to meet any crisis would help change the world picture.

# Asian Capitals Fear New Coup By Communists

Land Of Lamas Has Makeshift Army

(By The Associated Press)  
TOKYO — (AP) — Radio Peiping broadcast today that Chinese Reds are moving on Tibet, mid-Asian country seldom seen by white men.

The Red radio said the purpose of the Chinese Communist advance was "to free 3,000,000 Tibetans from imperialist oppression."

It did not mention the size of the Chinese force, its destination or whereabouts.

Ruled By Priests  
Nomadic Tibet is ruled by yellow-robed Lamaist priests. It covers 470,000 square miles in the lofty Himalaya mountains and often is called "the top of the world."

In winter it is almost inaccessible by land approaches. The grave news of a possible new Communist inspired war in Asia, this time on the opposite side of China from Korea, swept Asian capitals.

At New Delhi, the Indian foreign ministry said it had reports of "certain troop movements and incursions" by Chinese Reds along the China-Tibet border.

No Direct Word  
But it had no direct word of a Chinese invasion of Tibet, where already winter snows and icy mountain passes would make travel by foot soldiers difficult if not impossible.

Neither Washington nor Hong Kong, a good oriental listening post, had any report of a Sino-Red move against the priestly government of Tibet.

Amusement Places Soon To Come Under NPA Building Bans

WASHINGTON — (AP) — A government crackdown on building of amusement places such as race tracks, dance halls and bowling alleys appeared imminent today.

Officials of the National Production Authority (NPA) said last night the order will come out this week despite protests from segments of the construction industry.

It will be broad enough to prohibit the starting of new recreational buildings by state, city and federal agencies, these officials who asked not to be named. But they did not disclose whether it will apply also to theaters and night clubs.

Solons Turn Against Excess Profits Tax

By JOHN CHADWICK  
WASHINGTON — (AP) — Senator Flanders (R-Vt.) said today he has turned against an excess profits tax and now favors another levy to help pay for spiraling defense costs.

He added he believes other legislators may have had a similar change of heart since Congress adjourned last month.

There was strong congressional sentiment then for an excess profits tax, and Chairman George (D-Ga.) of the Senate Finance committee said yesterday that it will be one part of a multi-billion dollar tax increase which he said lies ahead.

George, whose committee post makes him one of the top tax spokesmen in Congress, forecast passage of an excess profits tax before Christmas or early next year at the latest, with the levy made retroactive to the last half or the last quarter of 1950.

Flanders, a businessman and former president of the Federal Reserve Bank of Boston, favored an excess profits tax until recently, he said he had changed his mind about it since Congress took because "the more I see of it, the more inequitable I think it is to apply an old-fashioned excess profits tax."

Flanders said such a levy would have its "heaviest impact on companies that have had the hardest time to live since the end of World War II and wouldn't do anything to General Motors, U. S. Steel, Chemical companies and others which have had record peacetime profits."

The war profits of these latter

# Jolson Funeral Thursday Noon

By BILL BECKER  
HOLLYWOOD — (AP) — Al Jolson is home for the last time today.

The cantor's boy whose voice thrilled millions will lie in his suburban Encino residence as friends pay their final respects to the great entertainer who died Monday night in a San Francisco hotel room.

The body arrived by plane late yesterday and the flower-draped casket was taken to a mortuary in a small grieving procession.

Mrs. Jolson—the singer's fourth wife, the former Erle Galbraith—was too grief stricken to meet the airborne cortege. A group of two dozen friends was headed by Louis Epstein, Jolson's manager for 35 years.

Funeral services will be held tomorrow noon at Temple Israel on the Hollywood boulevard where his name appeared in blazing lights so many times. Rabbi Max Nussbaum, assisted by Cantor Saul Silverman, will officiate at the public services. Interment will be in Forest Lawn Memorial Park in nearby Glendale.

The active pallbearers will be Harry Brand and Harry Cohn, film executives; Louis Epstein, the singer's manager; Harry Akst and Martin Fried, Jolson's arranger and accompanist, respectively, who were with him when he died; Nathan Kramer, Al Goetz and John Sackenberg, the last two of New York.

Mrs. Jolson requested that flowers be omitted and money that would be spent for them contributed to the American Heart Association.

Sault Man Named Member Of State Building Commission

SAULT STE. MARIE, Mich. — (AP) — Speaker Victor Knox (R-Sault Ste. Marie) announced appointment today of Paul W. McKee, Jr., Clemens publisher, and Charles Barnes, Sault Ste. Marie building contractor, to the state building commission.

Under legislation passed this year the speaker, lieutenant-governor, governor and mayor of Lansing are given two appointments each to the building commission. Appointees will serve as long as the office holders who appointed them.

# Bitter Battle Anticipated To Register Reds

By JACK ADAMS  
WASHINGTON — (AP) — The justice department, currently rounding up alien Communist leaders for deportation, squared away today for a fight to register the Communist party as a "foreign dominated" group. It expects a prolonged and bitter battle.

A large staff of department officials went to work on the detailed petition which must be presented to the new Subversive Activities Control Board (SACB) as a first step toward getting a registration order against the party.

May Take Years  
It probably will be ready within the next two weeks or so.

However, there is an almost unanimous feeling within the government that the whole process of enforced registration, requiring disclosure of activities, financing and a complete membership list, may take years.

Officials involved privately predict that just the public hearings on whether the party must register could consume as much time and effort as was required to bring about the conviction of 11 top party officials in New York last year on charges of conspiring to overthrow the government by violence.

And if the board after these hearings orders the party to register, it may then appeal to the courts.

100 Groups Named  
The trial of the 11 consumed nine full months of 1949, and that case is still going through the appeals process, more than a year later.

Based on the "subversive" list maintained by the attorney general, there are some 100 organizations and groups in the country which he regards as Communist or Communist controlled.

Since none stepped up to supply the private operating data during the 30 days allowed by the new internal security act for voluntary disclosure, the assumption is that the long-drawn-out enforcement procedure will have to be invoked against each in turn, starting with the Communist party.

The department's drive to get some 86 alleged foreign Communist leaders into custody and then cut loose the country meanwhile went forward in a dozen cities.

Scientists Sue For \$10,900,000

By ARTHUR L. EDSON  
WASHINGTON — (AP) — Britain's missing atomic scientist, Dr. Bruno Pontecorvo, could collect more than \$500,000 from the U. S. government if all his claims for development of the A-bomb were allowed.

As you doubtless know, Pontecorvo has mysteriously disappeared. Reports from Rome—so far unconfirmed—say he and his family have skipped to Russia.

A check here today showed that Pontecorvo is one of a group of scientists who say their patent on fissionable materials—the stuff atomic bombs are made of—was taken over by the government.

They have filled claims for: \$10,000,000, in the U. S. court of claims.

\$900,000, in the Atomic Energy Commission.

The course of claims suit was filed Aug. 21. Nothing has happened there yet. A preliminary report by an Atomic Energy Commission board doubted the validity of the claims, but no final action was taken.

Last French Bastion On Indochina Border Is Being Abandoned

SAIGON — (AP) — A military spokesman said today French troops have been withdrawn from outlying positions around isolated Loakay, last French bastion on Indochina's northwest frontier.

From Loakay itself civilians were being evacuated by air to Hanoi, 150 miles to the southeast. The spokesman said the civilian evacuation was begun on the recommendation of military authorities.

French troops pulled in from Loakay's outposts were reported digging defense lines in anticipation of an assault by menacing guerrilla forces of Moscow-trained Ho Chi Minh's Viet-Minh.

Trick-Or-Treat Calls Revised To Collect Polio Campaign Funds

GRAND RAPIDS — (AP) — The Halloween trick-or-treat routine will be given a new twist here next week for the benefit of polio victims.

## Young To Leave Forest Service

To Join PMA Area Office At Atlanta

George Young, 912 South 16th street, has resigned his position as assistant supervisor of the U. S. Forest Service here to become area training officer of the Production and Marketing Administration at Atlanta, Ga.

Mr. and Mrs. Young will leave Escanaba about Nov. 15 for Washington, where Mr. Young will be assigned to the PMA central headquarters for about a week before assuming his new duties at Atlanta. He will have charge of training and safety in the Southeastern area, comprising Georgia, Florida, Alabama, Mississippi, North and South Carolina, and portions of Kentucky and Tennessee. The area has about 2,000 employees.

The Production and Marketing Administration has five area offices in the United States. It is the largest division of the U. S. Department of Agriculture.

A graduate of the Michigan State College forestry school, Mr. Young also took post-graduate courses in administration at the University of Michigan. He was employed with the Florida State Forest Service from 1929 to 1933 when he joined the U. S. Forest Service. From 1933 to 1942, he was state supervisor of the Civilian Conservation Corps program in Michigan, and then went to the Milwaukee regional office of the Forest Service as assistant personnel officer.

Mr. Young moved to Escanaba in April, 1947, to become assistant supervisor of the Upper Michigan National Forest, with headquarters here.

Installation of a new 20-page printing press in the Escanaba Daily Press plant today was assured following an agreement of interested parties announced yesterday afternoon to Probate Judge William Miller.

The interested parties, all represented by counsel, are the special administrators of the John P. Norton estate, and Mack, Charles and Thomas Norton, who are contesting the validity of the John P. Norton will.

Also by agreement the contest of the will is to be heard in circuit court, as originally certified by Judge Miller following objections in probate court.

**Charge Will Fraud**  
John P. Norton, founder and for many years publisher of the Escanaba Daily Press, died on July 12, 1950.

Except for minor bequests to his brothers, Mack and Charles Norton of Cassopolis, Mich., and a nephew, Thomas Norton of Fort Lauderdale, Fla., the newspaper publisher willed his estate to the Escanaba board of education to establish a scholarship fund for Escanaba High school graduates.

Admission of the John P. Norton will to probate court was opposed by Mack, Charles and Thomas Norton. They charge that the will was improperly executed, that John P. Norton was mentally incompetent, and was subject to undue influence and fraud.

Special administrators of the John P. Norton estate are Atty. James E. Frost and Judi Lee of Escanaba. They had petitioned probate court for a rehearing on the admission of the will.

**Circuit Court Hearing**  
Judge Miller yesterday announced that following conference of the interested parties an agreement had been reached as follows:

1—That the special administrators had withdrawn their petition for a rehearing in probate court on the admission of the John P. Norton will; and that the contest of the will is to be heard in circuit court, probably in January.

2—That on the petition of Mack Norton, the bonds of the special administrators will be increased to \$100,000.

3—That the petition of Mack Norton to halt the making of any capital investments has resulted in agreement to permit the completion of the installation of a new printing press and elevator in the Escanaba Daily Press plant at a cost not in excess of \$80,000; and that if other improvements are necessary the administrators will have the right to petition the court for such improvements.

**Will Install Press**  
Counsel for the interested parties informed Probate Judge Miller they would prepare the necessary stipulation and order for the court covering their agreement.

In a sense a compromise, the agreement is expected to expedite the contest of the will. It was anticipated that if a hearing on the validity of the will had been held in probate court, the decision would have been appealed to circuit court by the losing party. The agreement also gives the "go" signal for continued improvement of the Daily Press in a program started before the death of Press founder John P. Norton.

Yet to be filed by the special administrators is an inventory of the Norton estate, which includes the Escanaba Daily Press, Old Orchard Farm, an interest in the

### Soviet Peace Proposal Would Deliver Free People To Reds

ANDREI VISHINSKY, Soviet foreign minister, proposed to the United Nations this week a world disarmament program that is predicated primarily upon the outlawing of the atomic bomb. The Soviet delegate at the UN conference did not talk about whittling the Soviet army down to the size of other nations, nor did he talk about yielding the Soviet advantage in tanks. He proposed instead the atomic bomb be outlawed as an instrument of war.

It happens that only in the field of atomic weapons does the United States have arms superiority over Russia. The Soviet delegate wants to contribute to his

version of world peace by forcing the United States to sacrifice the one weapon which today actually safeguards the peace of the world.

If it were not for fear of terrible retribution in atomic warfare, Russia today would not hesitate to gobble up all of the European continent and to seize the rich oil fields of the Near East.

Yesterday President Truman presented the American proposal for world peace through disarmament. He proposed that atomic warfare be outlawed but that provisions be made to guarantee the enforcement of the ban through international control and inspection of atomic energy plants and stockpiles. He suggested also that disarmament be general, to include all weapons of war and not only the atomic bomb. And he insisted that disarmament be vigilantly policed as a guarantee that no nation will be able to plan aggression.

The American plan is a realistic, honest and genuine approach to disarmament. Mr. Truman conceded that it probably cannot be achieved today because there are nations which lack the sincerity of purpose to make the plan workable.

Russia's proposal for peace through disarmament is a sham. If the Russian plan were accepted—God forbid—global war would materialize for certain and the result would be a complete victory for Communism. To accept the Russian plan is to deliver free peoples into the hands of ruthless, Godless rulers.

The world wants peace and is crying for a solution to its ills. The billions in dollars, the national resources and the energy of human beings are being dissipated in a scramble for security through armaments. It is a tragedy, but at the moment there is no other way.

## Al Jolson Was

### A Great American

THE death of Al Jolson removes from the American entertainment field one of its greatest performers. Al Jolson was a great singer of jazz songs, probably the greatest of all, but his popularity was not built entirely around his lusty voice. He was a great American.

Jolson trouped the American army camps all over the world in the last war, entertaining GI's from Alaska to the South Pacific. Only two weeks ago he returned from Korea where he entertained American troops at the battlefield.

The songs of Al Jolson will live for many years, even though the voice of the mammy-singer is stilled in death. Jolson was a great singer, and he also was a great American.

## Halting Arms Aid Would

### Pave Way To Disaster

MANY Americans might sympathize with former President Herbert Hoover's proposal that economic and military aid be withheld from western Europe until a united, sufficient European army is really in sight. But there'd be grave risk for us in such action.

From the statements of numerous U. S. officials, it seems clear that Europe has indeed made disappointingly slow progress toward helping itself in both the economic and the military spheres. There's been a strong tendency to let the United States carry the ball all the way.

As Hoover suggests, this country, with a population of 150,000,000, cannot forever bear the burden of defense for the entire free world against a Communist realm encompassing 800,000,000 people.

We all know the western nations were milked dry by the colossal demands of World War II, and have only begun to get back in shape in the past year or so. It's a pity they cannot simply concentrate on economic recovery instead of having to re-arm just five years after that conflict ended. But there is no help for it. Freedom is in peril and failure to marshal resources could mean slavery.

Some observers, as Hoover notes, doubt whether Europe has the will to fight or even the will to undertake preparedness. If those doubts are well-founded, we are in a grave situation, for it means little resistance would be offered to the Communist juggernaut should Russia decide to sweep across Europe.

In all fairness, we, in this land untouched so far by the ravages of war, must try to understand how a free people might develop such apathy. Two world wars have left many Europeans with little stomach for fighting. But would we be any different if we'd had a similar experience?

Some of our own World War II veterans showed by their bitter attitude toward the Korean war that Americans, too, might be markedly reluctant to take up arms soon again.

Nevertheless, we must hope that the fears of these doubters are not really soundly based. In fact, we have no choice but to hope that.

For to adopt Hoover's proposal very likely would be to throw western Europe right into the hands of the Reds. It is better to have some slim prospect of help against so formidable a foe than to have no friend in the field at all.

We must go on aiding Europe in the constant thought that somewhere in the process, the impoverished, war-weary peoples of that continent will fully recover their understanding of freedom's meaning, and with it the will to fight in its defense.

We must employ every method we can to prod Europeans to develop again the habit of self-help. But we must stop short of abandoning them completely. That step could well make impossible the defense of freedom anywhere on the globe—including our own country.

## The Postman

By Gordon Martin

When each day the postman comes around to leave your daily mail, he's a chap whose friendly word and smile you're very glad to hail. Doesn't matter what the weather, he will always come to call and he's sure a welcome visitor to folks both big and small. Not the snow nor rain, the legend says, can stay him from his round—for devotion to his duty he is properly renowned.

He can live afar from where his task may take him every day but he's really just your neighbor with a pleasant word to say. All the kids he knows in every block, and all their parents too, and he listens to their problems up and down the avenue. Nor the heat, the legend says, nor gloom of night can stay his route—of his ultimate arrival, there is never any doubt.

Bringing news both good and bad, he has an understanding heart, and in sharing joy and heartbreak, plays a sympathetic part. So it's natural your postman comes to be a valued friend, and that you and all your neighbors on his helpfulness depend. He's a courier, the legend says, who swiftly makes his round—he's your postman and a man whose job is properly renowned.

MARTIN

## Merry-Go-Round

By DREW PEARSON

EN ROUTE, ON WEST COAST—I do not know what his family will have written on the gravestone of Henry L. Stimson, who died last week, but I do know what I would write. I would write: "Here lies a man who, when all others gave up hope, labored for the peace of his fellow men."

Henry L. Stimson was secretary of state in the Hoover administration when I was a young newspaperman covering the state department. At first a critic, I grew to respect and love him and to consider him a great man.

As I look back on it I am ashamed of the way I sometimes heckled Mr. Stimson. Bill Flythe of the I. N. S. and Lyle Wilson of the U. P. and I used to think up all sorts of embarrassing questions to ask him at press conferences. And once I induced the late Fiorello La Guardia, then a member of Congress, to tack an amendment on the war department appropriations bill whereby no money could be spent for Stimson's military aide. A secretary of state, entrusted with keeping the peace, did not need a military aide. The House of Representatives voted it—though the Senate reversed the house and restored the appropriation.

Looking back on it, and considering the great things Stimson did for peace, he was entitled to the extravagance of a military aide—if it tickled his vanity.

### STROVE HARD FOR PEACE

Mr. Stimson was a queer mixture. He was secretary of war in two cabinets—Taft's and F.D.R.'s. He believed in and fought for a second military establishment. Yet the real mark he left on history was through his untiring, unrelenting, never-ending efforts for peace.

Almost unaided he staged a four-year struggle to rectify the injustices of the Versailles Treaty and stave off the forces which he saw all too clearly were hurtling the world toward war.

An age was dying—an age of international optimism, of disarmament drives and good will, the aftermath of the war to end war. An age was dying, and Henry L. Stimson, sensing the impending tragedy, struggled almost alone to give it renewed life.

Stimson became secretary of state just after Frank B. Kellogg had negotiated the Kellogg-Briand pact to outlaw war. That pact had no teeth and no supporting machinery, and Stimson, sincerely believing in what Kellogg had written, strove to make it work. Realizing the setback that Republican isolationists had given the world when they vetoed the League of Nations, he tried to atone for their mistake.

It was an uphill battle. For his chief in the White House, Herbert Hoover, disagreed with him. So did most of the GOP hierarchy. So did many of the diplomats around him in the state department.

### AHEAD OF HIS TIME

But Stimson saw much farther ahead than they. When the Japanese war lords struck in Manchuria in September, 1931, he saw ahead to Pearl Harbor; and perhaps also to present-day Korea. He knew that the minor skirmish on the tracks of the South Manchurian railroad 19 years ago actually was the beginning of a giant military grab for all of Asia.

So Stimson tried to breathe new life into the League of Nations, tried to enforce the nine-power pact guaranteeing the sovereignty of China. Finally he went to Europe, rented a villa on Lake Geneva and called in the chancellors of Europe to urge that aggression in this faraway corner of Asia was a greater threat to peace than the petty squabbles of Europe.

The premiers of Europe listened carefully. But Manchuria was too far off.

Those were dark days in Stimson's villa beside Lake Geneva. His room looked out on an old garden, sheltered by high trees in which roosted flocks of birds. And sometimes, when he could not sleep and work dragged endlessly, Stimson looked out among the poplars, saw again that line of men from the fields, the factories, the sea, going forward; and the line of women, wounded men, exhausted men, going back.

A panorama of his life lay before him, the latter years having been given to rebuilding equity and understanding among the peoples of the world.

And he had failed. Yet he had not failed. Few men who are in advance of their time live to see the things they strive for finally come to pass. But before he died last week Stimson saw his greatest dream fulfilled.

## Take My Word For It . . . Frank Colby

### READERS WANT TO KNOW

Greensburg: Is it true that the name Mary is of Hebrew origin?—Mrs. W. E. M. A. Yes. It began as the Hebrew Miryam, then Greek Mariam, then Latin Maria, then English Mary. Other forms are Marie and Marion.

Pittsburgh: Is this correct: "I am enclosing a 'frank' envelope"?—M. R. A. Better: a franked envelope. The franking privilege (free of postage) is used by certain congressmen, government officials, widows of presidents, and, at present, by soldiers and sailors in Korea.

Oakland: Is it correct to speak of a golden wedding anniversary?—Mrs. C. R. A. Not quite. You may call it the golden wedding, or the fiftieth anniversary.

Hamburg: How should Americans pronounce the name Versailles?—E. F. B. A. Say ver-SAILZ, or ver-SAY. Neither is exactly like the French, but both are sanctioned for American use.

St. Paul: I've been told that when expert is used as an adjective (an expert workman) it should be accented on the second syllable. Right?—Mrs. R. Y. E. A. The dictionaries list ex-PERT as first choice for the adjective, and EX-per-t as second choice. However, one seldom hears ex-PERT nowadays. I do not recommend it. In Standard American expert is EX-pert for both noun and adjective.

## Four Proposals Face Michigan Voters For Decision November 7

LANSING—(P)—Four proposals face Michigan voters for a decision on the Nov. 7 general election ballot, topped by measures to legalize the sale of colored oleomargarine and to outlaw subversives.

Three were placed on the ballot by the legislature as constitutional amendments, while the oleo issue reached the ballot box by a referendum initiated by dairy interests.

Proposal No. 1 is the simplest and least controversial of all. The main part of it would require a voter to live in any city or township for 30 days before he could vote. The limit now is 20 days.

This change was requested largely by Wayne county and Detroit election officials who contend it would give them more time in which to complete registration lists before election day.

### No opposition to No. 1

In addition the proposed amendment would eliminate outmoded language from the state's 42-year-old constitution dealing with the rights of Indians and, language which may conflict with the federal law concerning the right of the foreign-born to vote. No opposition has been voiced to the amendment publicly.

Proposal No. 2 would allow the state to issue "faith and credit" bonds worth \$65,000,000 with which to build more mental and tuberculosis hospitals.

It was the legislature's answer to Governor Williams' demand for a large building program financed by new taxes.

No mention is made in the amendment about how the bond issue would be financed and the supporters of the proposal have not announced any financing plans. Since the bonds are issued against the "full faith and credit" of the state, it would be up to the legislature to find some way of paying them off if the people approve the bond issue.

Public opposition to the bond issue also has been silent. Behind it is massed a state-wide citizens committee which has conducted a sales campaign emphasizing that there are long waiting lists for the present state hospitals and an estimate of 22 per cent overcrowding now—of more than 3,000 beds.

Legislators conceded the state needed more hospitals but said the state could not afford to build them out of current taxes.

### No. 3 Has Many Foes

With proposal No. 3 the voter hits the meatier end of the ballot. It is a constitutional amendment to define subversion as "any act or advocacy of any act intended to overthrow" form of the state or federal governments as established by the constitution "by force or violence or any unlawful means."

The amendment would allow the legislature to fix the penalty for subversion. It would forbid the defense of freedom of speech or of the Press in any trials involving subversion.

The amendment was passed by the legislature at the height of the American setbacks in Korea and in the midst of a scrap between the Republican lawmakers and Democratic Governor Williams as to who could be first across the goal line with an anti-subversive proposal.

Senator Colin L. Smith (R-Big Rapids), chairman of a Senate loyalty committee, sponsored the amendment in its final form and

it was rushed through both House and Senate with a minimum of debate. Smith said that the measure was virtually the same as one proposed by a "blue ribbon panel" of judges and attorneys whom Williams asked to draft a measure.

Attorney General Stephen J. Roth has said he believed the amendment would be found unconstitutional in the courts and there have been a few scattered voices raised against it.

The principal objections raised have been over the phrase "or by any unlawful means," a contention that the phrase is too broad to protect civil liberties. They also contend existing laws cover the subject sufficiently, including one passed by the last legislature.

Sponsors of the amendment argued that present laws do not provide a sufficiently strong weapon against subversion and that the civil guarantees which the constitution provides did not contemplate an international situation such as they believe now faces the nation. They contend the constitution was never meant to protect actions aimed at overthrow of the government.

### Colored Oleo Is Issue

Proposal No. 4 is the oleo issue. It was initiated by organized grocers and meat dealers in the first successful use of the initiative in Michigan history—then it was suspended by a referendum until the people could decide.

It seeks to change a 1901 state law, which forbids the sale of colored oleo, to legalize yellow oleo if it is clearly marked and conforms to the federal food and drug laws regulating content and purity.

The federal congress already has softened tax laws which made it uneconomical for merchants to sell colored oleo—but that law has no effect in Michigan unless the state removes its outright ban on the product.

The legislature already has prepared for the possibility of the law being approved by the people. The lawmakers adopted stiffer rules covering the sale of colored oleo to make certain packages are marked so that the customer will not be deceived and to require oleo sold in restaurants to be in triangular pats.

The organized farm groups have been conducting a vigorous campaign against the measure, contending that it will ruin Michigan's dairy industry and indirectly affect the economic welfare of the entire state. They contend that the voter rally is being held to help the southern vegetable fat producers and injure the Michigan butter fat producers.

Supporters of the proposal base their arguments largely on an appeal to the housewife, contending that passage of the law will remove the messy job of coloring oleo in the kitchen. They deny the claim it would injure the dairy interest, asserting that it has not done so in 32 other states which have legalized colored oleo.

## Here's Quick Run-Down On Our Defense Program

By JAMES MARLOW

WASHINGTON—(P)—The defense program here at home—called the mobilization program—has been under way a little more than a month.

But the odds are that by now you're pretty foggy on a lot of it. And no wonder. A lot of stuff has been pouring out of here every day.

A new step here, a new agency there, a new agency head. After a while it gets too piled up for any newspaper reader to keep the whole picture clear.

So, just as a refresher, here's a quick run-down on the way the program has been put in motion so far.

On Sept. 1 Congress passed the defense production act to give the government power to set up rules for avoiding inflation while at the same time setting arms production without weakening the civilian economy.

### Two Major Lines

On Sept. 8 President Truman signed the act into law. Since then he has followed two major lines:

1. In most cases he has depended on the regular government departments or agencies, already in existence, to handle the different parts of the problem.

2. He created one important new agency—the economic stabilization agency (ESA)—to handle price and wage controls, if they become necessary.

And over all this as a kind of combination "soothsayer-trouble-shooter" and Mr. Fixit he has appointed W. Stuart Symington.

Symington, chairman of the National security resources board,

was asked by Mr. Truman to try and iron out conflicts among the various departments and agencies handling defense problems.

Take ESA first. To head this Mr. Truman named Dr. Alan Valentine, educator and member of the board of directors of several corporations.

ESA has two main parts:

1. A wage stabilization board of nine men. It will be the job of this board to advise Valentine on how the government should hold down wages if wages and price controls become necessary. It will also have the job then of trying peacefully to settle labor-management disputes.

Mr. Truman has appointed the chairman of this board—but so far none of the other eight members. The chairman is C. V. Chang, former head of the government's mediation service.

2. Price stabilization board. This board is to serve in the price field the same advisory job to Valentine as Chang's board. So far no director has been named for it.

The rest of the jobs were undertaken by existing agencies.

The State Department wants me to consider myself a widow because they are doing nothing about getting my husband out of prison. They want to write him off. Just like they did Korea. And I intend to see that they make a new beachhead in Bob's case just as they had to do in Korea.—Mrs. Robert Vogeler, wife of an American businessman imprisoned in Hungary.

I wouldn't appoint John L. Lewis dog catcher.—President Truman

## Good Evening . . .

By CLINT DUNATHAN

MATTER OF HISTORY—Information has come to us concerning a sidelight of Escanaba's school history. You may recall that Edward E. Edick, Escanaba Senior high school principal, outlined the history of the schools at a recent meeting of the Rotary club.

Now comes the report that O. V. Thatcher and Atty. James E. Frost of Escanaba "were members of the last class to graduate from the Franklin school" when the high school was located there. The present Senior high was constructed in 1908.

The above may date the two EHS graduates we have named, but the following is less exact. Con Driscoll (senior, that is) graduated from Escanaba high in that earlier day, and now as treasurer of the Upper Michigan Power & Light company has his office in a former school building. For the company's office on Stephenson avenue was once the old Brown school (or was it Gray school?) recalled only by local historians.

LETTER TO THE STUDENTS—Miss Vendela Sundquist of Escanaba, who came here from Menominee to teach the fourth grade in the Barr school, recently was quoted in the Menominee Herald-Leader's "Town Crier" column. The quotation was a letter Miss Sundquist had written the fourth graders in the Menominee school, in reply to letters they had addressed to her.

"What a pleasant surprise you gave me. Your letters came and were wonderful. You are writing so neatly and nice and big too. Oh I hope you are doing your best work. I will try to answer some of your questions:

"I do like Escanaba and teaching here because it is my home, but I miss you and Menominee terribly. Somehow I had so much fun in Menominee, even if you sometimes made me terribly cross. You remember how I used to scold you when you talked so much and weren't good listeners? But I love everyone of you because your heart is good and you are so happy and kind.

"This year I am in the fourth grade, too, ha-ha! There are 25 children in our room, 14 boys and 11 girls. We don't have separate desks and seats, we work at beautiful large blonde tables and chairs, two children sit at each table. The tables are especially wonderful for painting, drawing and when we have parties. Do you think you could work together at tables without talking too much? We are trying very hard to do our best work. Our room is large and so clean.

"We rent our books from the school. We pay \$2.25 rental each year. Each child pays that and then our spellers, crayons, paints and paper are extra. So the first week we each paid \$3.92. We have many books in our room. You would love to read them. These are the names of our books. We each have one of these, so we must study hard:

Geography—"Our Big World."  
Science—"Discovering Our World."  
Health—"The Girl Next Door."  
Reader—"Times and Places" and "World Book."

Prose and Poetry—"The Sunshine Book."  
History—"Great Names in American History" (one-half year) and "Wonderful America" (one-half year).

"Arithmetic We Use."

Language—"Gaining Skill With Words."

Speller—"Using Words We Need."

"My Weekly Reader."

"All this keeps us very busy. There are 350 children in our building and 11 teachers. One boy brought a record player to our room. We can keep it until June. Isn't that wonderful? But we don't have a football team in the grade schools and your high school team beat our high school. Good for you anyway!"

THE CURIOUS DEER—The story of the young deer that apparently wanted to go duck hunting came to our attention the other day.

Ted Sura of the Veterans' Administration, on a Portage Bay duck hunting trip Saturday morning, was startled in the early-morning hour to hear something splashing through the water toward his blind. He looked over the top—and his nose almost met that of a young deer.

In the following half hour the deer went along the shore, visiting one duck blind after another, and then waded across the shallow bay to Portage Point. As hunters always say: You can see plenty of deer in duck season and lots of grouse in deer season—but few of any in season!

## Into The Past

### 10 YEARS AGO

Escanaba—Mr. and Mrs. Walter Mayer of Wells, who are leaving in the near future for Mount Carmel, Pa., where they will make their home, were guests of honor at a farewell supper, arranged by members of the First Methodist church, in which both have been very active.

Washington—Congress was admitted today that it had broken all peace time records this session by appropriating or committing the government to expenditure of \$25,572,919,237, a sum exceeded only once in United States history—during the World War.

### 20 YEARS AGO

New York—A series of items of business optimism sang across the wires of the nation today—the first anniversary of the stock market crash. They told of several thousand men being called back to full-time jobs, of plants preparing to resume normal operations and, in one instance, of an increase in wages.

Escanaba—Increasing interest in the cause of better potatoes on the part of both grower and buyer is evident in Escanaba as a result of the second annual U. P. potato show at the Coliseum. First place, the title of premier potato grower of the U. P., and a prize of \$75, went to Victor Soderman, Crystal Falls, who presided at the meeting by virtue of his office in the Potato Growers' association.

## Safety Chief Lauds Peninsula Division Record

Safety work of employees of the Peninsula division of the Chicago and Northwestern railroad was lauded today by A. C. Klein, of Chicago, C&NW safety supervisor.

He spoke at a staff meeting in the office of Leonard Reynolds, division superintendent.

Klein said the Peninsula division ranks fourth in the Chicago and Northwestern system in safety, being surpassed only by the Black Hills and Madison divisions of the C&NW and the Eastern division of the Omaha line.

## Men Lost In Woods 22 Hours Tell Their Story

GRAND MARAIS — The three men who were lost 22 hours last weekend in the forest east of the Sucker river have told the story of their mishap.

Supervisor Louis A. Dowell of Grand Marais and his two companions, Steve Robozekay and Mike Garcia of Detroit, were found near noon Monday in the trackless swamp and timberland east of the Sucker river by a Grand Marais trio, Beverly Bugg, Peter Sebastian and Daniel Krakowak. Bugg is Dowell's nephew.

The rescue party brought sandwiches, candy, cigarettes and whiskey.

Dowell and his companions said they drove to Pullup hill Sunday afternoon to look over timber in that section. They walked further into the forest than they intended, losing their way. None of the men had a gun or compass. They built a bonfire under three hemlock trees to shield themselves from the sleet and snow.

They reported that they could see the beaconlight of the Grand Marais airport but could not walk through the dense brush and swamp in the darkness.

The men were extremely tired but otherwise suffered no ill effects after being found by the searching party.

Search for the missing men began Sunday evening when Mrs. Dowell sought the help of her brother Vercil Bugg. Bugg notified Game Warden Clyde Lambert of the men's disappearance. By Monday morning Sheriff Moote of Munising, state police officers and most of Grand Marais' male population had joined in the search.

## Fayette

Mr. and Mrs. Pryor Stanaway of Negaunee visited at the home of Mr. and Mrs. Herbert Watchorn Wednesday.

Miss Evelyn Dalgord has returned from Chicago where she has been employed, to spend some time here with her parents, Mr. and Mrs. Harley Dalgord.

Lily in Bloom

Mrs. Glen Thill had a pleasant surprise while working in her garden recently when she found that the Easter lily which she planted outdoors in the spring, and forgotten, had two large buds ready to bloom.

## Rapid River

Birthday Dinner

RAPID RIVER—Marie Callahan entertained several of her schoolmates at a dinner party Sunday, October 22, at her home, arranged in honor of her eleventh birthday anniversary. Following dinner Mrs. Ray Callahan, Marie's mother, took the group to motion picture show after which they returned for a light lunch. Marie received lovely gifts. At the party were Marilyn Jay, Bonnie Whipple, Gail Columb, Sharon Unook, Julie Hayes and Georgie Wesen.

Luther League Hike

Members of Calvary Luther League enjoyed a hike to the Wesen cottage on the Rapid River north of town Friday evening. Twenty-five members from Rapid River, Alton and Ogontz attended. Supper was served by a committee, Mrs. Walter Wilke, Mrs. Ole Wickstrom and Mrs. Wilbur Johnson. A regular meeting followed the supper and an interesting talk was given by Rev. Johnson, pastor of the church.

Personals

Mr. and Mrs. Paul Schram have moved to Gladstone and are living just off Lake Shore Drive on the north side.

## Wages And Prices Will Go Up Soon In Steel Industry

NEW YORK — (AP)—Steel prices will go up \$6 to \$10 a ton and steelworkers will get wage and fringe benefits totaling 17 1/2 to 18 cents an hour, The Iron Age, metalworking trade weekly said today.

The publication said the price increase would average somewhere near \$8 a ton or about 10 per cent.

This, it said, "will take care of raw material advances, labor increase (including white collar workers), uneconomical production due to defense orders and expansion cost, most of which has to come from profits."

Steel labor, the trade weekly said, "will get an average of 12 1/2 to 13 cents an hour raise in base rates and an additional 5 cents in fringe concessions making a total of about 17 1/2 to 18 cents an hour. Fringe concessions will include changes in holidays, vacations, job classifications and pensions."

Unless something entirely unforeseen occurs, the publication added, this price-wage change in steel will happen soon.

### Baptism Services

Rites of baptism were administered to Ralph Norman, son of Mr. and Mrs. Ralph Ansell, and to William Earl and Susanne Lynn, children of Mr. and Mrs. Bernard Bodette by Rev. Gerald Bowen at the Congregational church Sunday afternoon. Accompanying the minister was a young Canadian minister who told briefly of his intention to leave with his wife and little daughter for missionary work in Japan in February. He played two solos on his saxophone which he has also dedicated to that work.

### Bridge Club Meeting

Mrs. George Farley entertained members of her bridge club at her cabin near Garden Junction Thursday evening. Potluck lunch was served after play. Prizes went to Mrs. Herbert Foote for high score and 80 honors, to Mrs. Charles Gauthier for the traveling prize and Mrs. Alfred LaVallee for low score.

The Women's Fellowship of the Congregational church will meet at the home of Mrs. Jack King, Wednesday afternoon, Nov. 1.

Mrs. Joseph Farley accompanied Mr. and Mrs. Alex Cooper of Manistique to Iron Mountain Saturday to visit with Mr. and Mrs. Andrew Cooper for the weekend.

GREENBACK WITH RED TOUCHES—This is a copy of one side of a phony American dollar bill being circulated widely among the poor in Italy by Communist propagandists. In place of the usual seal, the note has an atomic bomb and the inscription "Atomic Death Terror." On the opposite side are the letters "KIKI" under a hooded figure. The inscriptions at top and bottom say "With this money they cannot buy the Koreans," and "With this money they cannot buy the Italian people."

## King George Visits House Of Commons, Forbidden Ground

LONDON — (AP) — A mysterious gentleman in a grey overcoat and derby hat—cheered by a crowd of watchers as King George VI of England—visited the New House of Commons today.

The House is forbidden ground for the King. Only one king ever entered it. He was Charles I, who in 1642 went with soldiers to arrest political foes. His visit started a revolution and he was beheaded.

Spokesmen at Buckingham palace and officials of the House of Commons both adopted a "mum's-the-word" attitude about this king's visit, an inspection tour of the new building. The old structure was blitzed in May, 1941.

A little later members of Phi Delta Theta fraternity, University of Southern California, arrived at the shelter to claim the skunk.

It developed that the skunk is a decorated pet named "Roseblossom," but some of the boys at the Phi Delta house call her "Beta."

## Burmese Prisoners Love Jail Life

RANGOON—(7)—Burmese prisoners are houses of vice catering to the worst forms of depravity and perversion, Burmese M. P. Thakin Ba Than declared here.

He told Parliament prisoners can have anything they want—at a price. He said this included opium.

Ba Than, imprisoned in 1949 for a political offence, asserted homosexuality was encouraged and practised.

The U. S. S. Constitution, "Old Ironsides," carried 21-pound guns, compared with the 18-pounders of British frigates of the time.

## Airman Takes Back Confession In Killing Of Flint Cashier, 17

FLINT, Mich. — (AP) — The state renewed today its attempt to prove that Pvt. Kenneth Nesbitt's confession in the slaying of 17-year-old Beatrice Dickerson was not made under duress.

Nesbitt, a 23-year-old Selfridge field airman, is on trial in circuit court for the July 11, 1949, slaying of the pretty Flint theater cashier, who was shot, strangled and thrown into a thicket.

Defense Attorney John L. Roach contended as the trial opened yesterday that Nesbitt confessed "under duress" after prolonged questioning by state police. Nesbitt claims now he is innocent.

State Police Sgt. Vincent F. Neering and State Detective Berk Yungler both testified no duress was involved in Nesbitt's confession.

Neering testified that Nesbitt told police several things about the slaying "that only the killer could have known."

Neering said Nesbitt told police he got his feet wet dragging the body into the thicket, adding that only the slayer could have known part of the route was under water.

The police sergeant also said Nesbitt told exactly how a stocking was knotted about the girl's throat, and described her purse perfectly.

In Tokyo, said the Red army's "liberation" move was disclosed in a dispatch from Chungking, China, Tuesday.

The dispatch said: "A political mobilization directive to people's (Communist) army units, which have been ordered to advance into Tibet to free 3,000,000 Tibetans from imperialist oppression and to consolidate the national defenses of the western borders of China, has been issued jointly by the southwest China Bureau of the Communist party of China, the southwest military area and the headquarters of the second field army."

On Way Since April

After the Red broadcast a Tibetan delegation left New Delhi for Peiping to try to talk with the Chinese Communist regime on Tibet's future.

The seven-man delegation is expected to reach Peiping in mid-November. It left Tibet in April. Tibet maintains it is autonomous. The Reds insist it is part of China. The mountainous country declared its independence centuries ago. China recognized its autonomy in 1914.

Since Nationalist China fell last year, the Chinese Reds have clamored for inclusion of Tibet in Red China. The lofty Tibet is described as a strongly anti-Communist country.

Equipment Poor

Its army is small, between 10,000 and 100,000 men. Their equipment is poor, mostly rifles and no armor.

The spiritual ruler of Tibet is the Dalai Lama, a 15-year-old who is under a priestly regent.

Two years ago he led the living Buddhas and student Lamas in three days of prayer against Communism.

A few days later a revolt broke out in Lhasa, the capital, but it was quelled. Many reports at that time said the revolt was Red inspired.

Since then there have been recurrent reports of revolts in Tibet. The Tibetans avoided the Chinese civil war by ordering the Nationalist Chinese mission in Lhasa to leave the country.

Tibetan reports later said the tiny country was looking to the United States for aid in combating any possible Communist aggression.

Gaylord Merchants To Keep Long Hours During Deer Season

GAYLORD, Mich. — (AP) — Gaylord merchants have agreed to keep their business places open around the clock at the start of the deer hunting season.

They will be open for business from the morning of Nov. 13 to regular closing time the next day.

Douglas Nash, secretary-manager of the Otsego county chamber of commerce, said this is being done to accommodate deer hunters.

The hunters will be flocking through Gaylord's main street, US-27, almost continuously for the opening of the deer season.

The chamber of commerce also will hold open house. It will serve coffee for hunters all night long.

East German Reds Weed Out Weaklings

BERLIN — (AP) — Moscow-trained leaders of East Germany's ruling Communist party today proclaimed a sweeping purge of alleged Red weaklings from the party, government and nationalized economy.

The officially-described "new cleanup" will strike at old Communists who emigrated to the west instead of to Russia in the Nazi era, and their sympathizers.

Sheepskins Go Up

DETROIT — (AP) — It costs more to graduate now, too.

## Russian Pressure May Split Austria

VIENNA — (AP) — Communist newspapers openly threatened today that Austria might be split in two—just like Germany—before long.

The threat came as the Russians countermanded an Austrian government order suspending five pro-Communist district police chiefs in Soviet sectors of Vienna.

It was a Russian action just like this that was partially responsible in 1948 for the east-west split of Berlin.

The suspended police chiefs still were at their desks this morning. They refused to obey orders from the Vienna police president and the Austrian government to leave.

## Vandenberg Agrees With Truman Speech To United Nations

GRAND RAPIDS, Mich. — (AP) — Sen. Vandenberg (R-Mich.) is in substantial agreement with President Truman's speech to the United Nations.

In a statement yesterday the Republican foreign policy leader said Mr. Truman's speech "substantially reflects what was in my soul when I had the unpartisan privilege of being one of the Americans to sign the United Nations charter."

Sen. Vandenberg was one signer of the charter for the United States five years ago. He is recovering at his home here from a series of operations.

"The aspiration for honorable peace with justice and the determination dependably to stop aggression and tyranny for keeps

possesses the hearts of men and cannot be denied," Vandenberg said.

The level valley of the Red River of the North is ideal for mechanized grain farming because of its black soil, almost free of rocks and trees.

## O-JIB-WA STOPPED MY ARTHRITIS PAINS; STIFFNESS ALL GONE

For over 35 years, O-JIB-WA BITTERS has brought quick positive results to sufferers of Rheumatism, Arthritis, Backaches and that always tired feeling. Hundreds of thousands of people right here in Michigan praise and recommend O-JIB-WA for what it has done for them.

Every person who suffers with the stabbing pains and crippling effects of rheumatism, arthritis, neuritis and sciatica, can find new hope in the following unsolicited words of Mrs. Graham Grasse, 2261 Bartlett Road, Port Huron, Michigan, who tried many medicines and treatments without results, and had all she could do just to keep going. After reading this statement made by Mrs. Grasse, which follows, we are sure you will agree that O-JIB-WA BITTERS is well worth your trial.

### Suffered 7 Years

"I have lost many a night's sleep during the last seven years because of the awful pains of rheumatism and arthritis. I had it in my legs, knees, neck, shoulders, arms and even in my fingers and wrist. Although I tried many medicines, nothing gave me relief. At times I would get so bad I would just have to let the work go. My hands were quite useless and it was hard for me to do anything. My bones would crack and ache with every movement, and even getting in or out of our car was painful and difficult."

"I read about O-JIB-WA BITTERS and decided to give it a trial. I bought the 40 day treatment size and by the time I had taken half of it, I was quite surprised at how much better I was feeling. It seemed like no time at all before my pains had completely left me and I could feel the strength returning to my arms and hands. Now I'm wringing out my clothes by hand and can hardly remember the pain this used to cause. I can honestly say that O-JIB-WA BITTERS has done wonders for me. I have taken it three months and there's not a pain in my body, also used to suffer greatly with stom-

ach distress and would bloat up with gas and indigestion, but this too has cleared up completely thanks to O-JIB-WA BITTERS. I feel better and have more pep today than I have in years. O-JIB-WA is a wonderful medicine and I am glad to recommend it."

### A Corrective Medicine Made Entirely of Herbs

O-JIB-WA BITTERS is not just a food supplement, but an all herb medicine entirely free of alcohol and pain deadening drugs. This great medicine acts to correct the causes of rheumatism, arthritis and common stomach disorders. O-JIB-WA is like taking 5 medicines in 1, as it acts to clear the blood of poisons and waste that foster rheumatism and arthritis. O-JIB-WA promotes better digestion, stopping gas, indigestion and heartburn. O-JIB-WA stimulates weak sluggish kidneys to relieve backaches, nite rising and restless sleep. Regardless of how long you have suffered or what you have tried without results, you owe it to yourself to give O-JIB-WA BITTERS a chance to help you ACT IMMEDIATELY. YOU WILL NOT BE DISAPPOINTED. Available in all leading drug stores in Michigan.

Especially recommended by BISBEE, CITY, WAHL, PEOPLES DRUG STORES IN ESCANABA, IVORY DRUG IN GLADSTONE, PUTNAM DRUG, SIDDALL DRUG IN MANISTIQUE.

## Corporation Profits Tax, Children's Aid Urged In Demo Talks

The most important issue in the political campaign in Michigan is taxation and the Democratic party stands for a tax on corporation profits rather than more consumer tax, Philip Hart, candidate for secretary of state, declared here yesterday.

Hart, chairman of the corporation securities commission; Mrs. Margaret Price, candidate for auditor general; and Stephen Roth, candidate for re-election as attorney general, spoke at a Democratic luncheon at the House of Ludington.

Consumers already pay 80 per cent of the tax load in Michigan and on a national scale the average is about 60 per cent, Hart pointed out.

"The corporation profits tax is not an importation from Moscow and is in use in 32 states already," Hart asserted. He explained that in Michigan corporations pay \$2.50 per thousand of value of their enterprises, but in no case can the tax levy on corporations exceed \$50,000.

Twenty-six Michigan corporations pay only the ceiling rate, the securities commission chairman noted. General Motors, he said, which pays the ceiling rate, actually is assessed at a rate of 1/37.

Michigan must have more taxes to get out of its critical financial condition and Democrats propose to tax profits made by corporations, he summarized.

Mrs. Price, who is chairman of the Michigan Youth commission and a member of the Mackinac commission, assailed the cuts in children's services, effected by the Republicans in the state legislature.

"The decrease in children's aid when we should have been increasing the services, is Michigan's major regression," Mrs. Price emphasized. Michigan now has a population of 2,000,000 children and each year 20,000 to 30,000 more children enter our schools, the chairman of the youth commission stated.

Delta County was deprived of

about \$182,800 by the diversion of teacher's retirement funds, Mrs. Price said, and because Governor Williams road program was not put in effect, Delta County was deprived of \$140,000 in road improvements.

Stephen Roth, attorney general, declared that every progressive step which has been taken by government is branded "socialism," "communism," "chaos" or "ruin." He cited criticism directed at the creation of the Federal reserve bank, social security, unemployment insurance and other programs as illustrations.

Roth, who introduced Mrs. Price and Hart, berated the Republican legislature for its "phony economy cuts," declaring that the measures were only surface economies, and that appropriations were not made for a full year, to give the appearance of economy cuts.

Democratic county candidates, Rep. Guido D. Valenti of Iron Mountain, the state candidates and Delta Democratic workers were among those attending the luncheon. Einar Erlandsen, candidate for re-election as Delta representative in the state legislature, was toastmaster.

**Detroit: Man Loses Over 80 Lbs.,  
And 14 Inches At Waistline**

"It feels wonderful to walk into a store for clothes and get what you want," writes Jack Ewart, 5377 Field, Detroit 13, Mich. "I have been using Rendel Concentrate for 5 months, and I wish to compliment your wonderful product. With the help of Rendel I have lost over 80 lbs. and have reduced my waistline by 14 inches. I was examined recently by my family doctor, and he says I am doing fine. I am 29 years old, and feel better than I have in the last 10 years."

Thousands of others have overcome the social and physical discomfort of being overweight with this effective home recipe. It's easy—no trouble at all and costs little. Just go to your druggist and ask for four ounces of

liquid Rendel Concentrate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it. No diets to complicate your meal planning. No expensive vitamins to fortify your system from weakness while going without food for you can eat normally. If the very first bottle doesn't show the simple, easy way to lose pounds of bulky fat and help regain slender, more youthful curves—if reducible excess fat doesn't seem to disappear almost like magic just return the empty bottle to the manufacturer for your money back.

Don't be switched to another product, insist on genuine Rendel.

## One Brother Saved But Baby Perishes In Benton Harbor Fire

BENTON HARBOR, Mich.—A 12-year-old Benton township boy rescued one brother but was unable to save another when fire broke out in their home at 9 o'clock Sunday night while the parents were attending church.

Seventeen months old Robert Dean Briney died at Mercy hospital at 1:45 a. m. of burns and inhalation of smoke, after being trapped in an upstairs bedroom. The child was the son of Mr. and Mrs. Kenneth Briney, Wood avenue, Route 3, Benton township.

Douglas, three, was saved by the older brother, Jerry, who was driven back by flames and smoke in the stairway of the family home when he attempted to reach Robert. He carried Douglas to safety and then gave the alarm that summoned members of the Benton township fire department. Firemen placed a ladder to the second story and carried the baby out of the building. An inhalator was used and the victim partially revived but died later at the hospital.

Benton township firemen attributed the fire to a defective electric light switch. The fire itself was extinguished before extensive damage was done to the Briney home.

## Audit Of Retirement Fund Clears Books Of State Treasurer

LANSING—(P)—A private audit of the State Employees' retirement fund demanded by Democratic Attorney General Stephen J. Roth has given the fund controller, Republican State Treasurer D. Hale Brake, a clean bill of health.

The auditors, Touche, Niven, Bailey and Smart of Detroit, reported to Auditor General Muriel K. Aten that the only "significant" default in the fund was the controversial El Siglo investment which started Roth's attacks on Brake, culminating with the demand for an audit. It was ordered by the state administrative board.

The auditors reported they found sufficient controls over the fund to insure accuracy, although the procedures might be simplified somewhat.

On the ill-fated El Siglo investment, the placing of state money in a Tucson, Ariz., apartment mortgage secured by the Federal Housing Administration, the auditors said the state would recover the original \$673,080 investment, plus a \$10,072 premium paid to a

## You Can't Build A Better Mousetrap!

"They're not the best-looking boarders a man ever had," Hack Turner said one day, "and they've got awful tempers. But I've found it pays to have 'em around."

Hack was talking about a family of barn owls, nesting in his silo this year. Some folks believe those little white-faced screechers kill chickens—and ought to be shot on sight. But Hack disagrees.

"Up at State University they've studied barn owls for years—and never known one to eat a chicken. On the other hand, a daddy owl will clean up around 300 mice a

month. Farmers that kill barn owls are throwing away the best mousetraps known to man!"

From where I sit, someone shows a prejudice against any group of animals or humans—it's usually just based on misunderstanding. For instance, some folks are plumb intolerant about those of us who enjoy an occasional quiet glass of beer. Get to really know us and you're liable to find we're pretty good birds at that!

THERE'S a change of the year for your Buick, too, stalwart as it is! Hot summer driving has taken its toll—in played-out lubricants, spark timing that may have slipped off a notch or two over the many miles, a carburetor that would probably give you better mileage and snap if it were properly adjusted now for fall driving.

Point is—your Buick will feel a lot friskier in the trying days to come if you let your Buick dealer get those summer kinks out of its system now! Just drive in—say you want (1) a fall tune-up and (2) a regular Lubricare—and see how much rewarded you are, for a small fee!

Do it this week, will you? Before the rush, you can be served more promptly.

## New Wonder Medicine Eats Up Dead Tissues

By ALTON L. BLAKESLEE  
(Associated Press Science Reporter)  
BOSTON—(AP)—A white powder that eats up dead tissue and pus in a chest infection, without hurting healthy tissue, was reported to the American college of surgeons.

It promises to become a new wonder medicine to clean up infected wounds, chronic sinus trouble, and other infections. The powder is pure crystallized trypsin, a natural chemical in your digestion. The trypsin made in your body digests the meat and

other proteins you eat. But it doesn't touch living proteins, or otherwise it would dissolve the intestines.

**Effective In TB**  
Trypsin has easily dissolved jelly-like masses that sometimes form in the chest cavity, outside the lung, in people with tuberculosis, said Drs. Howard Reiser, L. C. Roettig and George M. Curtis of Ohio State university college of medicine, and Clark County and Rocky Glen tuberculosis hospitals, Columbus.

This condition, called empyema,

is one of the worst complications of lung tuberculosis. The mass is made up of blood, bacteria, pus, serum and dead tissue. It tends to get hard, while the pleura or covering of the lungs may become thickened. Sometimes it is impossible to operate to remove ribs to rest the infected lung.

Trypsin, injected by needle, liquefies the mass, turning it into a tawny watery fluid which then can be sucked out of the chest cavity. The cavity itself seems to become sterilized in some cases, by a peculiar action not yet understood.

One woman, dying of TB, was helped so much she gained weight and was able to walk around again the surgeons said.

The trypsin, extracted from the pancreas glands of cows, was supplied by Armour laboratories, Chicago.

**May Halt Gangrene**  
Armour is stepping up production and supplying trypsin to various clinics to study other uses of this chemical that automatically separates living from dead tissue. One possibility is treating war wounds or any infected injuries. In these, there is danger of gangrene, an infectious process that spreads to and destroys healthy areas. The dead areas have to be cut out, with much healthy tissue also removed for safety. Trypsin may remove the dead tissue and halt the infection quickly.

In chronic sinus, hollow cavities in the head can become clogged with debris, including germs and dead tissue. Drugs can't reach the germs. Trypsin may clear the way for the drugs.

It also may help in external ul-

## Firemen Squirt Water At Nosey Motorists

LITTLE ROCK, (AP)—The fire department at nearby Jacksonville decided to do something about motorists who get in the way at fires.

What it did was to put on a fake fire alarm. When motorists starting driving

cars, in bone fractures that resist healing, or in peritonitis, the infection of the lining of the abdomen. Trypsin makes body cells release histamine, a substance blamed for causing some allergic reactions. Antihistamine drugs were given to the TB patients to avoid any allergy-like reactions.

over fire hose at the "scene" of the non-existent fire yesterday, the firemen started squirting water—at the motorists.

One man took a punch at a fireman. It cost the puncher \$10 in court.

The fireman had a black eye.

Candidates Are  
Guests At Club  
Dinner Meeting

"Know Your Candidates" was the subject of the regular dinner meeting of the Escanaba Business and Professional Women's club held last night at the Sherman hotel.

The high point of the program was the introduction to members of the club of the Republican and Democratic candidates for county office. The program was arranged by the public affairs committee, Mrs. Clara Strom, chairman, Miss Hella Karppinen, Mrs. Signe Nerbonne and Mrs. Vivian Miller.

During the business meeting which followed Mrs. Strom told of a meeting of the Marquette Business and Professional Women's club which she attended in Marquette.

The Marquette club, Mrs. Strom said, presented a panel on international relations, the speakers club women who recently were abroad. The panel members discussed the attitude of the people they had visited toward Americans. They concluded that the American tourist often failed as a harbinger of good will because he was not prepared to understand the difficulties of foreign people.

G. S. Leonard, Escanaba director of public safety, will speak on "Civilian Defense for Escanaba" at the next club meeting November 14.

Joyce O'Seen  
Is The Bride Of  
Kenneth Marenger

White mums and tapers decorated the altar of St. Thomas the Apostle church for the wedding Saturday morning of Miss Joyce Marie O'Seen, daughter of Mr. and Mrs. John O'Seen, 509 North 15th street, and Kenneth Donald Marenger, son of Mr. and Mrs. Dona Marenger, 933 Sheridan Road. The 9 o'clock ceremony was performed by Rev. Fr. Hartman.

Traditional bridal music was played by the organist. Music of the wedding mass was sung by the church choir.

Miss Della Marenger, sister of the groom, attended Miss O'Seen as maid of honor. Miss Anita Carlson and Miss Mary Lou McGovern were bridesmaids. Lester Pepin served as best man for Mr. Marenger and Clayton Marenger and Raymond O'Seen as groomsmen.

## Bridal Gown

The bride's gown of white slipper satin was styled with a long train and an illusion yoke edged with Chantilly lace. The long sleeves of the dress tapered to a point over the wrist. Her fingertip veil of lace net was caught to a crown of rhinestones and pearls. A single strand of pearls and tiny pearl earrings, gifts of the groom, were worn by the bride, who carried a bouquet of white mums and red roses tied with streamers of satin.

Miss Marenger, the maid of honor, wore a blue satin gown with a neckline of illusion, full skirt and fitted bodice. Yellow mums and bronze baby mums tied with yellow satin ribbon formed her bouquet. The bridesmaids wore identical gowns of yellow and orchid with fitted bodices and illusion necklines. They carried bouquets of yellow chrysanthemums. The three attendants wore mits and picture hats which matched their gowns.

Mrs. O'Seen selected a beige dressmaker suit with matching accessories. The groom's mother wore a black dress and matching accessories. Both mothers had red rose corsages.

## Wedding Reception

A breakfast for the bridal party was held at the home of the groom's sister. Twenty-five guests attended the wedding dinner at the Log Cabin. Candles and white chrysanthemums decorated the table. A buffet lunch was served to 250 guests attending the reception at Unity Hall. A wedding cake flanked by candles and white baby mums served as centerpiece for the bridal table. Later in the evening a wedding dance was held at Unity hall.

The young couple will live at

LUDINGTON  
BUY-LINES  
by Sue Donimus

MARY had a little lamb—what will you have? Looks like the fellows will have a little lamb, too. Mouton collars are topping all the men's jackets this year to make them smarter and warmer than ever. Anderson-Bloom has such a wide variety of jackets in gabardines, poplins and twills. Hope your sales resistance isn't as good as the wind resistance on those jackets! Or that this won't run off your back like water runs off the backs of ducks. You'll warm up to the prices, \$13.95 to \$22.50 at Anderson-Bloom.

USE your head, girl! Use it to model one of the chic little fall hats from the Penny Store. The top brass aren't the only ones who get to wear the gold braid. It trims the colorful felts from Penny's. Small velvet, fur felts-trimmed in brilliant or with feathers. Use your head—where can you find such fashion at such tiny prices? —\$2.99 to \$4.98!

THERE'S a sensational boudoir story at Petersen's Furniture Shop! It's really quite enlightening to see the new boudoir lamps... and nothing shady about them except those tall, modern parchments in gray, green and salmon. Starting at only \$6.95 each! The whole store is aglow with handsome new lamps for the living room, too. Besides the floor lamps, there are many new table lamps that measure almost 3 feet high. I liked the deeply carved bases in yellow, gray or green with shades to match. I liked the \$12.95 price tag, too. You'll see the light when you see Petersen's lamps!

WHAT little squirt wouldn't love to play soda-jerk at the miniature soda fountain I saw today! Little push buttons marked Cola, Rootbeer, Cherry and Chocolate will really operate when the hidden bottles are filled with pop. Want to take years off your life and go back to childhood for awhile? Stop down at that "beautiful girl and boy land" in Lauer-man's basement. Toyland is ready and brimming over with new ideas for a merrier Christmas for the kids. Really hot stuff is that fire engine to push around... big enough to sit on, too. The real siren makes little eyes glow and small spines tingle. At Lauer-man's!

THERE'S no business like show business — unless maybe it's the paint business. Yes, sir, it's a regular variety show down at the NuEnamel Paint Store! Their full shelves prove their slogan, "A paint for every purpose—a price for every pocketbook." Starring in the show this week is a lineoleum lacquer that will put a fine, hard finish on your lineoleum for six months. Eliminates those weekly waxing. Needless to be so hard on your knees when there's NuEnamel lacquer. Phone 3261 for free delivery, or stop at 820 Ludington Street.

THE fair sex don't usually like to tell their age—but the Fair Store is proud of it's 62 years! So proud, in fact, that they're going to let us all in on the birthday party—the 62nd Anniversary Sale. They let me have a preview peek at the 16 page circular that will be coming to your house. I could hardly believe the fabulous prices on some of those darling dresses. And when I saw the low down on compact, nylons, and handbags I thought I couldn't wait for Thursday to come. Yes, tomorrow's the day when the festivities begin. Be sure to register for the prizes in the basement and see that the kiddies get their free gifts, too. Happy birthday, dear Fair Store! Happy Birthday to you!

"T'S a steal!" That's exciting baseball talk to the men. "It's a steel top cabinet"—that's even more exciting to a housewife. You just can't beat stainless steel for beauty, usefulness and durability. The surface is so easy to keep clean, and it resists all rust and stain. A lifetime of service at low maintenance cost. Steel out to see Ray Erickson of Erickson Millwork. And while you're there, ask about his custom built kitchen cabinets with flush doors. Topped with stainless steel, they're tops! Call 2747-J.

ENGLISHMAN: What's that noise?  
American: That's an owl.  
Englishman: I know—but 'oo's 'owling?

The owl's a wise old bird so I asked him what to do about that battle I'm waging against dry skin. I quote him. "It's the night treatment that's important. First, get yourself a jar of Yardley Night Cream — you can get that at Gust Asp's — \$1.10 plus tax. Give yourself a 20 minute treatment with it before you go to bed—don't have to leave it on all night. It gets deep into the pores—takes care of lines around the nose and eyes. Filled with rich lubricating oils — you can't miss."

## Birth Certificate Proves Bugaboo

Manager Finds He Is Listed Wrongly

City Manager H. J. Henrikson was in somewhat of a quandary this week when he discovered in seeking a copy of his birth certificate that records revealed the person born on what he has been using as his birthday was named William Hilmer. Hilmer has a brother, William, and thinking possibly the two names were switched in the birth records they looked up William's birth certificate but this also read William.

Here there were two Williams but no Hilmer J. in the Henrikson family.

Fortunately the city manager's parents are still alive and he is having no trouble in getting affidavits to prove he was born on the date always used as his birthday, that his name was Hilmer J., and the name on the record is in error.

## Dawn Baldouf Is October Bride Of Norman A. White

All Saints Episcopal church of Pontiac was the scene of a beautiful wedding on Saturday evening at 8 o'clock, when Miss Dawn Marie Baldouf, daughter of Mrs. Harold A. Baldouf and Norman A. White, son of Mr. and Mrs. Hanford White, city, spoke their nuptial vows. The ceremony was performed by the Rev. Ivo I. Curtis, pastor.

Lighted tapers formed the altar decorations and tall standards of white mums, gladioli and snapdragons were placed at either side of the chancel steps. Everett Ewing of Flint, Mich., soloist, sang "Because" and "The Lord's Prayer" before the bride entered the church.

The lovely bride, given in marriage by her uncle, Kenneth Porter of New York city, chose a gown of ivory satin, fashioned with a fitted bodice coming to points at the waist. A double row of lace formed a bertha below the illusion neckline. Her fingertip veil was held in place by an ivory satin cap. She carried a colonial bouquet of large white chrysanthemums encircled by feathered chrysanthemums. For her "something old" she carried an heirloom handkerchief belonging to her great grandmother.

The bridal aides, Miss Virginia Bailey of St. Johns, Mich., the maid of honor, and the Misses Marilyn Meade and Jean Dunlop, bridesmaids of Pontiac, wore like gowns of forest green taffeta styled with v-necklines and cap sleeves. The fitted bodices fell into a point in the front and a bustle in the back. Their flowers were cascades of chrysanthemums ranging in colors from bronze to yellow. The same flowers were used in small arrangements for their hair.

John White of Cincinnati, Ohio, was his brother's best man. Ushers were James Reese of Royal Oak, Mich., and Dick VanDeWeghe of Chicago.

Mrs. Baldouf chose a tall blue lace floor length dress for her daughter's wedding. Red roses formed her corsage. The groom's mother was gowned in a wine colored floor length crepe dress with silver beading around the neckline. A gardenia corsage was pinned to her shoulder.

A reception was held in the Rose Kneale Room immediately after the ceremony. Cut flowers were placed throughout the room. The table was overlaid with a cutwork cloth and lighted tapers were placed at either side of the three tiered wedding cake which was topped with a bridal bell.

For her going away costume the bride was attired in a purple plum colored dressmaker suit and brown accessories. An orchid corsage was pinned to her shoulder. The new-laws will reside in Chicago.

Both the bride and groom are graduates of the University of Michigan, the bride of the Music school, and the groom, of the School of Architecture. The groom is affiliated with Delta Tau Delta Fraternity.

Out of town guests were, Mr. and Mrs. Kenneth L. Porter, New York City; Mrs. Merrill Baldouf and Mr. and Mrs. Richard Mills, Hillsdale, Mich.; Mrs. F. L. Dewey, Dowagiac, Mich.; Mr. and Mrs. Hanford White, Gladstone, Mich.; Mr. and Mrs. Frank Andrew and Mrs. Joseph Turner, Escanaba; Miss Elizabeth Shannon, Mrs. Eric Samman, and Bill Turner, Lansing, Mich.; John White, Cincinnati, Ohio; James Reese, Royal Oak, Mich.; Dick VanDeWeghe, Chicago and Mr. and Mrs. Everett Ewing, Flint, Mich.

## First Coffee Hour Dinner Successful

Speaking on the subject "A Citizen's Responsibilities" Toward Community Development" Joseph Gucky, superintendent of schools at Stephenson declared that community betterment may be accomplished if there is proper leadership, that motivation is a big and vital factor and that proper leadership can be developed.

Sup't Gucky was speaking at the first anniversary banquet of the Coffee Hour Monday evening in Memorial Methodist church and he lauded the Coffee Hour as another and new means of motivation.

The speaker said that in five years he has been at Stephenson, the village with the aid of the Kellogg Foundation has completed 55 projects of a great program. He cited some of the accomplishments in education, outdoor education, Home and Family Life, Recreation, Sportslighting, community service and many other fields.

He said human beings are prone to be too complacent, we don't do more than we have to, expect the government to do it for us—which is a dangerous philosophy. He declared we should take more interest in the American way of life and said it was his opinion that unless we did that we would not be able to preserve the American way of life.

Ted Brewer, who has spearheaded the Coffee Hour, spoke briefly telling of how the Coffee Hour operated without rules or by-laws and of some good which had come as the result of questions raised at the weekly gathering.

Some pleasing selections were given by a barbershop quartet from Escanaba composed of Art Jensen, Kenneth Thompson, Lowell Sundstrom and Ernest Peterson and Jane Jandro and Noreen Sebeck presented several delightful accordion numbers.

Rev. Glenn Kjellberg served ably in capacity as toastmaster.

## Bartenders Finance Trip To Save Sight Of South Bend Boy

SAN FRANCISCO — (P) — A three-year-old South Bend, Ind., girl will be examined for an operation that may restore the sight of one eye and save the remaining vision in the other.

Little Sharon Sue Clubb arrived with her mother Sunday to see Dr. Otto Barkan, a specialist who has developed an operation for glaucoma, a hardening of the eyeballs that has limited her sight since birth.

Her trip and the possible operation are being financed by the South Bend local of the AFL Bartenders Union. Bruno J. Manioli, San Francisco local president of the union, met Sharon and her mother as they arrived by plane.

The tiny blue-eyed blonde has already undergone four operations.

The report was prepared by Lawrence Scudder and company, certified public accountants, of Marquette.

The report revealed that during the nine-year period, operating

revenues of the department amounted to \$161,536.13 while operating expenses totaled \$182,241.76. Other income amounted to \$4,418.37, leaving a surplus net loss of \$15,187.26.

Commenting on the net loss of \$15,187.26 for the period under review, there are expenditures of \$13,186.84 for items of capital outlay other than major improvements which were charged to the asset accounts and \$12,000 for retirement of water bonds. Included in the net loss is depreciation on capital assets of \$27,621.23, an item not requiring cash outlay.

"Converting these items to a semi-cash basis there would still result an adjusted net loss of \$12,752.87."

### Rates Increased

Under current increased water rates, and in particular the increase in the "readiness to serve" charge, the water department by April 30, 1954, would be able to pay its operating expenses, retire the balance of its outstanding bonds, and have a surplus of \$8,426.55, the audit report points out.

After that an annual net profit of \$12,950 should be made by the city on the water department, the audit reveals.

This annual net profit, the audit indicates, would be sufficient to retire proposed new revenue bonds to reconstruct the city water system, an admitted "must" on the municipality's future improvement program.

Cost of rebuilding the water system will depend upon the type approved by the city council, it was revealed during discussion of the matter at the council session.

### Need New Gravity Main

Definitely needed, it was pointed out by councilmen, is replacement of the gravity main now bringing water from Intake Park, on the Indian river, to the city reservoir on Western avenue. Reconstruction of the reservoir, now leaking badly, also would have to be included on the program.

Another proposal under consideration is building of a pumping station and filtration plant at Intake Park and force transmission of water through the tank over the present pumping station. Cost of this work, councilmen said, would be much higher than replacement of the gravity main, now in rather poor condition.

A definite decision on the type of reconstruction which will be used will be made after more information is received from consulting engineers.

### Predator Bounties Gain In September

LANSING (P) — Predators—foxes, coyotes, bobcats and wolves—took a beating in September from hunters and trappers, the state conservation department reported today.

The state paid bounties totalling \$16,110 on 1,042 foxes, 565 coyotes, 168 bobcats and six wolves. The kill of coyotes, bobcats and wolves was almost double the take in August.

## Baseball Field Will Be Topic

### Recreation Board To Meet Thursday

A resolution recently passed by the building and grounds committee of the board of supervisors offering the city a lease on fairgrounds property for a baseball diamond will be studied at a meeting of the city recreation commission Thursday night.

The meeting will be held at the city hall, starting at 7:30 p. m. Mrs. Earl LeBrasseur is chairman of the commission. Other members are Emery Barnes, Russell Watson, John F. Wood and Robert Berger. T. H. Reque is director.

City council members studied the resolution at their meeting Monday night and decided to turn the matter over to the recreation board. Councilmen suggested that the recreation group also give consideration to building a new diamond in the eastern end of the quarry pool area and enclosing it in a fence. Property for this, councilmen said, would have to be purchased from the county.

### Offer 10-Year Lease

In its resolution the building and grounds committee offers to the city a 10-year lease on a site in the fairgrounds at a cost of \$100 a year, with option to renew for another 10 years. The resolution grants the city the right to construct and maintain a baseball diamond on the site, and to build such stands and fences as meet the approval of the board of trustees of the Schoolcraft Memorial hospital.

The present baseball field is located in the fairgrounds, and members of the recreation board and the Manistique Baseball association have been anxious to know whether they can use the field next season. If the field is to be made available by the county, full preparation of the area for baseball would have to be made if the field is to be used next season, it was pointed out.

The building and grounds committee met on Oct. 10. Members are Agner Dehlin, of Hiawatha township, chairman; William Popour, of Inwood township; Herbert Burns, of Manistique township; William W. Davidson, of Doyle township; and George Stephens, of the city.

### United Nations Assembly Held At High School

In observance of United Nations Day Tuesday, an unusual assembly program, arranged by Miss Helvi Walkonen, teacher of social studies, was presented in the Manistique high school auditorium Tuesday afternoon.

The program opened with an informal discussion of the United Nations with the following students participating: John Wedell, Janet Sheehan, Mary Ann Minicoff, Ellen Heideman and Robert Nelson.

At the conclusion of the discussion Ellen Heideman read a list of several countries which are members of the United Nations, and Robert Nelson, representing the United States, held aloft a white candle emblematic of peace.

Other students, costumed in the native attire of the country they represented, marched across the stage and lit candles at the one held by Nelson.

Those representing various nations, besides Nelson, were James Nelson, Sweden; Betty Terrian, China; Nick Babladelis, Greece; Catherine Barker, France; and Karen Jewett, Mexico.

Following this ceremony Janet Sheehan read the United Nations poem and J. Earl Cousineau, of the high school faculty, sang a solo, "Prayer for Peace," accompanied by Mrs. Roger Eisentraut, public school music supervisor.

Concluding number on the program was a prayer for peace by the students, led by Cousineau.

Displayed at the assembly was a United Nations flag made by girls of the high school home economics department, directed by Mrs. Jerome Hoholik.

### Social

**Primes Honored**

Mr. and Mrs. Ray L. Prime were the guests of honor at a dinner and bridge social given at the home of Mr. and Mrs. Arthur F. Hall Monday evening.

Following a farewell dinner, bridge was played and prizes were awarded to A. J. Cayia, high at the men's tables, and Mrs. Prime, high at the women's tables.

Mr. and Mrs. Prime, who are leaving for Asheville, N. C. about November 1, were presented with a lovely gift.

ELKS INITIATE EIGHT — Seven of eight candidates initiated into the Manistique Elks lodge last Wednesday evening are shown above. They are: Back row, left to right—John Orr, Harold Guntzville and Raymond Billings; front row, left to right—Robert Sleeper, Lloyd E. Ash, Anton Jahn and H. W. Heideman. Joseph LaMuth, the other candidate initiated, is not shown in the picture. Two other applicants for membership, Ralph Morrison and James McKenzie, were unable to be present for the ceremony. ## Blacktopping Program Cost City \$25,771.21

Total cost of the blacktopping job in Manistique, including the reconstruction and blacktopping of one block on Walnut street, amounted to \$25,771.21, it was reported at the regular city council meeting Monday night by H. W. Heideman, city manager.

Included in the figure, he told councilmen, is the cost of removing trees and laying new sidewalk and curb on Walnut street.

The blacktopping alone, he said, cost \$22,326.92. This includes the resurfacing of the one block on Walnut street; all of River street; South Cedar street from River to Arbutus avenue; one block on Oak street; and street parking areas on US-2 through the city from North Maple to the end of Chippewa avenue. Cost of blacktopping the center 20-feet of US-2 was borne by the Michigan state highway department.

### Walnut Street Costs

The Walnut street job, he said, cost \$5,800.29. This was broken down by the city manager as follows:

Removing trees, \$270; city labor on trees, \$85; grading labor, \$180; crushed rock, \$56.25; total \$591.25.

Cost of curb—cement, \$192; labor, \$593.88; forms, \$66.12; total, \$852.

Cost of "sidewalks"—concrete, \$874.80; expansion joint material, \$170; tarpaper, \$4; labor, \$1,087.84; total, \$2,136.64.

Blacktop—247½ yards, \$2,356.

Total cost, \$5935.89, less a credit of \$135.60 for work on driveways, paid to city by owners.

Following presentation of the report, council members discussed the advisability of continuing the blacktopping program on city streets next season when the state highway contractor has his blacktopping machine here for the completion of the resurfacing work on US-2 between Manistique and the Delta county line.

### Discuss 1951 Plans

It was tentatively decided that another block on Walnut street, between South Cedar and Pearl streets, should be included in any resurfacing program launched in the spring of 1951. Also discussed was the possibility of resurfacing Main street to the Schoolcraft Memorial hospital, and Arbutus avenue through Lakeside to US-2.

No action, however, was taken. The matter of collecting part of the cost of the blacktopping program through a special assessment against benefiting property owners also was discussed but no action was taken. Two councilmen, George Stephens and Walter Burns, expressed strong opposition to the special assessment idea, declaring that benefits derived from the resurfaced streets accrued to the entire city, and not just to abutting property owners.

### Retailers Will Meet November 1

The monthly dinner meeting of the retail division of the Top O' Lake Michigan Chamber of Commerce will be held November 1 at the Paul Bunyan Cook Camp at 7 p. m., it is announced by William Frederick, chamber secretary.

Everett Cookson, chairman of this division, will lead the round-table discussion and call on various committee chairmen for their reports.

These meetings have been well attended and the cooperative spirit evidenced is producing excellent results, Cookson pointed out. Reservations should be made in advance at the chamber of commerce office.

Mrs. D. M. Creeger and daughter, Marjeanne, have returned from a trip to Detroit and Grand Rapids. They also attended a "Homecoming" at Alma college.

### CARD OF THANKS

We wish to extend many thanks to all the generous and thoughtful friends and neighbors of Grand Marais, who had a housewarming for us last Sunday afternoon. This act of kindness will always be remembered.

Signed:

## Council Studies Report Of State Water Board; Action On Other Matters

A report on the hearing of the Water Resources commission, held at Marquette on Sept. 26, was read at the regular meeting of the Manistique city council Monday night.

Councilman George Stephens and City Manager H. W. Heideman represented the city at the session.

The report revealed that Manistique had been given until June 1, 1952, to have plans and specifications for a sewage disposal plant here completed, and until June 1, 1954, to have the plant built.

The city manager said he had advised the commission that

Manistique already has preliminary plans for the sewage treatment plant ready, and pledged that final plans would be ready by June 1, 1952.

The council also postponed action on four bids for new floor covering at the city hall. The lowest bid, \$395, was considered by councilmen to be too high.

### Footbridge Completed

The city manager reported that the footbridge across the Manistique river, below the plant of the Manistique Pulp and Paper company, had been repaired at a cost of \$200.

Approval was granted for the installation of a switchboard in the city hall by which the city will reduce its trunk telephone lines from five to three. The new installation also will make it possible for various city offices to intercommunicate without channeling messages through the local telephone exchange. The new switchboard will have six extensions. Installation of the board will save the city \$15 a month in telephone charges, the city manager told the council.

Permission was granted, subject to approval by the city manager, for the Bethel Baptist church to have a new driveway opened to its garage adjacent to the church on East Elk street. An old driveway, it was reported, will be closed. Request for the new driveway opening was made by Rev. Harold Martinson, pastor.

### Purchase Christmas Lights

Purchase of six Christmas street decoration lights was authorized by the city. Measuring approximately 37 inches in diameter, these lights will be suspended over the street center. Thirty similar lights are being purchased by the Top O' Lake Michigan Chamber of Commerce for installation on light standards in the community's business areas, it was reported by the city manager.

The appointment of Robert Berger as a member of the city recreation commission was confirmed by the council. Also approved was permission for the Naph-Sol Refining company, of Muskegon, to install a 6000-gallon gasoline tank at its station adjacent to Hotel Ossie, recently purchased from Frank Schon. Request for this was made in a letter from L. A. Frahs, president of the Border Oil company, of Escanaba. Installation, Frahs said, was to start this week.

A report from the Schoolcraft County Board of Social Welfare was read, showing that direct relief in Manistique during September amounted to \$627.90.

## New Housing Act Approved

### Ordinance No. 66 Passed On Monday

Final reading and adoption of Ordinance No. 66, providing for the creation of a Manistique housing commission, took place at the regular meeting of the city council here Monday night.

The ordinance will become effective 15 days after its publication, scheduled to take place on Thursday, Oct. 26.

If three per cent of the registered voters object to the ordinance within 15 days after publication, the city will have to place the matter on a ballot at a special election, it was pointed out to the council by William Hood, city attorney.

The ordinance provides for the creation of a five-man local housing commission with authority to investigate the need for low-rent homes here and to qualify the city to come under the federal housing administration.

During preliminary discussion of the ordinance at the last few meetings of the city board, some councilmen expressed the belief that several low-rent public housing units might be needed here.

Appointment of the commission will be made after the ordinance takes effect.

### TELLS ABOUT WONDERFUL RELIEF FROM CONSTIPATION

Mrs. Katherine Merrihue, beautiful and talented advertising executive of New York City, says: "I always rely on Dr. Edwards' Olive Tablets to relieve constipation. They are a purely vegetable product and are so mild, so gentle yet so very thorough in action."

Note: For years Dr. F. M. Edwards, a noted Ohio doctor, recommended Olive Tablets for patients with constipation and its headaches, lack of pep and sallow skin. Olive Tablets clean clogging waste from the entire intestinal tract, giving more natural-like bowel movements—so smooth—no gripping! 15¢, 50¢, and 60¢.
